ANSWER The answer is 1000. The total number of students in the school is 1000.

ANSWER The answer is 1000.

The figure consists of a vertical column of 15 horizontal bars. Each bar is a solid black rectangle. The lengths of the bars vary significantly, creating a visual representation of data distribution. The bars are arranged from top to bottom in descending order of length, starting with a very long bar at the top and ending with a very short bar at the bottom. The spacing between the bars is uniform.

¹ I had originally read it on March 28, 2023, the day it was published.

A horizontal bar chart illustrating the percentage of respondents who have heard of different topics. The y-axis lists ten topics, and the x-axis represents the percentage from 0% to 100%. The bars show varying levels of awareness, with most topics reaching high percentages.

Topic	Percentage Heard
Healthcare reform	98%
Political parties	95%
Environmental issues	92%
Economic policies	90%
Technological advancements	88%
Cultural trends	85%
Social justice movements	82%
Historical events	78%
Art and literature	75%
Science and medicine	72%
